

**ANIMAL CARE CENTER**  
Drs. Robert Burton & Jan Yerk  
PO Box 365  
Remington IN 47977

TO APHIS,

Concerning Docket # 99-040-1  
the proposal to make Rabies  
vaccination effective for dog-wolf  
crosses & wolves.

As a practicing veterinarian  
I am in favor of this. A medical  
specialist like Rabies vaccine  
should be effective in wolves  
& it would prevent the  
needless Euthanasia of wolf/dog  
crosses in exposure cases

Dr Jan Yerk
