Re: Docket # 99-040-1

To whom it may concern,

I am writing this letter in support of the proposed amendment to the Virus-Serum-Toxin Act. My professional and personal opinion is the definition of dog should include all members of Canis familiaris, Canis lupus, or any dog wolf cross. It is my feeling that vaccines recommended for dog can be used and are effective in wolves and dog-wolf crosses.

Sincerely,

David G. LaFever, DVM
